

## PG 4 Euro PG 6 Euro – S PG 9 Euro – S PG 12 Euro – S

### Description

Powder extinguishers are still as indispensable as ever, especially in industry, warehousing and logistics, building management and other business sectors. This fact results from the benefits of powder extinguishers, specifically:

- their versatility and ability to combat almost all kinds of fire (fire classes A, B, C)
- their great effectiveness as extinguishers (high ratings)
- the comparatively light weight of powder extinguishers in relation to their suppression power
- their very fast suppression action

In the fields of application listed below, any fires that may arise need to be extinguished quickly by untrained operators to avoid secondary damage that can cause extremely high costs.

FLN has redesigned the PG 6 Euro, PG 9 Euro, and PG 12 Euro offered previously and, with the PG 4 Euro. It now offers an additional fire extinguisher that weighs less and that has a comparatively high rating. This new range satisfies all requirements on modern high-performance fire extinguishers to an above average standard.

### Special features

- High suppression ratings for all types (see Technical Data section)
- Robust steel tank with a 100% pressure test and a plastic-coated surface
- Immediate suppression action and sealing of solid surfaces to prevent flashback
- Light weight
- Brass valve with robust steel handles for operations under harsh conditions
- Test valve and pressure gauge are standard
- Pressure relief valve as protection against raised pressure for 6 kg to 12 kg models (service faults, influence of temperature)
- Easy actuation
- Suitable for all wall brackets (an advantage for retrofits)

### Applications

- Building management
- Industrial systems
- Commercial premises and workshops
- Warehousing
- Logistics and transport
- Garages
- Gas stations
- Heating systems
- Agriculture
- Waste management

### Accessories as cost options

- Plastic base ring
- Fire extinguisher stands for standalone installation (not wall-mounted)
- Various designs of protection box
- Brackets for mounting on vehicles / construction vehicles / farm vehicles / marine craft
- Comprehensive range of designations / panels (also luminescent)
