

Foam Extinguisher (Rechargeable) S6SKPeco N S9SKPeco N

Fighting fires and protecting assets

With these NEURUPPIN fire extinguishers, you have a powerful weapon to hand in the event of a fire. The two S6SKPeco N and S9SKPeco N foam extinguishers are able to fight fires very effectively with their ultra-efficient suppressant. Suitable for inexperienced users thanks to their intuitive operation and long discharge time. With the rotating, ergonomically well designed pistol grip, fire-suppression agent can be directed accurately after pressing the pushbutton. Targeted dispensing is possible at all times using the adjustable nozzle for short bursts of operation.

Applications

- Fire-fighting of materials in fire classes A and B (solid or liquid substances)
- Manufacturing and processing industry
- Workshop areas, trade, commerce
- Gastronomy
- Office premises
- Sales facilities
- Warehouses and logistics
- Cinema, theaters and other performance spaces
- Administration buildings
- Medical facilities
- Childcare facilities
- Educational institutions
- Domestic

Special advantages

- Proven and safe recharging technique – with pushbutton and pistol with a pressure-relief function.
- Parkable pistol – good dispensing action for multiple brief bursts when fighting a fire.
- Intuitive function – also intuitive to understand for inexperienced users.
- No impaired visibility when fighting a fire – great advantage compared to powder extinguishers.
- Complies with DIN EN 3 specifications – for use on electrical systems (up to 1000 V, 1 m minimum distance).
- Environmentally compatible operation - by keeping the concentrate for fighting B-class fires in a separate cartridge.
- Corrosion protection included – Steel tank with high-quality, red powder coating (TGCI-free) and additional 1 mm thickness of PE inner coating, double quality testing procedure.
- Simple and low-cost maintenance – with large container opening, separate storage of agent in concentrate cartridge as well as repeat components.
- Long maintenance intervals – agent service life extended to six years.
- Made in Germany – high quality, robust nozzle and 100% pressure testing of the tank.
- Wall bracket – standard in the scope of delivery.
- Plastic base rings as standard.
